There are many factors used by the Company to evaluate an Application for Lawyers Professional Liability insurance. Such factors may include a law firm's areas of practice, loss history, risk management and an insurance score.

An insurance score is developed from a mathematical model that weighs and measures credit information such as payment history, the number of collections, bankruptcies, outstanding debt, length of credit history, types of credit in use and the number of new applications for credit. These factors have been shown to correlate with insurance loss activity.

You may be eligible for a premium discount based upon your insurance score. An insurance score will not result in a premium increase. The insurance score is also never the basis on which the company will accept or reject an application for an insurance policy.

If you do not wish to have your insurance score computed, please check the box.

By signing this application on the following page the applicant agrees that after inquiry of all prospective insureds, no person proposed for coverage is aware of any fact or circumstance which reasonably might give rise to a future claim that would fall within the scope of the proposed coverage.
